

PROTECT® GRANULE (PELLET)

**ready-to-use bait for rodent control
for professional and household use**

PROTECT® GRANULE (PELLET) is manufactured from 1st class, foodstuff quality ground wheat. Due to its hardness rodents consume the granules readily. Recommended for outdoor and indoor use.

PROTECT® GRANULE (PELLET)

ACTIVE INGREDIENT: 0.005 % Bromadiolone

ADVANTAGES:

- Contains second generation anticoagulant active ingredient.
- A single consumption is enough for the elimination of rodents.
- Low active ingredient content.
- Due to large portion of wheat favourable acceptance by rodents.
- Coloured bait with bittering agent, Bitrex, to avoid accidental consumption by humans and domestic animals.

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance:	solid, granules
Odour:	none
Colour:	pink dyed
Solubility:	in water not soluble
Size:	Ø 5 mm x ~10

GENERAL INFORMATION:

The delayed-action anticoagulant rodenticide granule kills the rodents generally after one consumption. Death of the rodents will begin 5-7 days after consumption. Depending on the extent of the infestation and on the size of the area, the elimination of all rodents is to be expected within 2-3 weeks.

DIRECTION OF USE:

Place out the bait in a paper or plastic tray, near the runs and hiding-places of rodents. If the rodents consumed the granule, replace by fresh product. Check the granules every 7-10 days and replace the consumed granules. Soiled or spoiled granules should be removed immediately and replaced by fresh product. Continue replacing the granules until the total elimination of the rodents.

PACKAGING: 2x175 g trays/box, 24 boxes/carton
3 kg/bucket, 60 buckets/palette, 10 kg buckets 40 buckets/palette
30 kg in paper drum
